Channel Reading #1 - November 19, 2020

(1) Observation: 9 of Air - Ready to fly - but new at it - practicing, climbed a mountain and there is no climbing down from it - stay or fall or fly, take a leap of faith - 9 represents the fullness of your understanding of the World

(2) Awakening/Grief: Hermit / Time-Out - Solitude, holding the keys to your soul, inner light, waiting for the right time, process all you have learned, speaking your Truth

(3) Duality: 8 of Air - Loss or giving, you've risen to great heights - things may feel like they're falling apart, be at one with the Process, seeing problems from a higher and wider vantage point, reaching through clouded vision to see Truth, waving away clouds obscuring the vision of others

(4) Acceptance/Growth: Ace of Water - Self-worth, solitude, role-reversal (male seahorse is a house-husband), mystery, uniqueness, oddball, carrying the burden for others, caring for what is birthed out of you

(5) Integration: King of Air - Master of the Sky (Mind), daunting, powerful - but not all will recognize this in your daily life (superhero disguise), ability to rise above circumstance, protected, hard but fair leader, strong and protective (appropriate) Ego

(6) Building: King of Water - Joviality, pleasure in the small things, enjoyment of the natural world, master of the depths (emotions), weapon and tool (destroy or build), ancient wisdom, caring for those smaller than you
